**DIRECTIONS TO SITE:** Go north of Forks on Hwy 101 about 1.0 mi. Turn left (west) just past MP 193 onto the La Push Road. Proceed west 3.1 mi. to the Quillayute Road jct. Turn right on the Quillayute Road and continue on for 2.4 mi. to a gravel road to the right (go past the driveway to the residence). Take this road to the RY-5000 about 0.1 mi. left on the 5000 for about 0.3 mi. to the 5100 (MP 3). Turn right onto the 5100 and drive for about 1.6 mi. to a 4 way jct. Turn left onto 5102 continue for 0.6 mi. to Mina Smith Cr. crossing. Ed's Cr. (ED-111L-02) joins Mina Smith Cr. at the lower end of the culvert and parallels back along the road.

**FISH ACCESS AND CURRENT USE:** Fish have unlimited access to this channel. Two 1+ coho fry were observed. May be some beaver dams in Mina Smith Cr. that inhibit the upstream movement of fry.

**FLOODING POTENTIAL:** Low

**LANDOWNER:** Unknown at this time, probably ITT Rayonier.

**WETLAND PLANTS:** Slough Sedge, Soft Rush, Small Fruited Bulrush, Haddock, willow, Water Parsley, Water Cress, Horse Tail, Skunk Cabbage, Langsdorfs Violet.

**COMMENTS & RECOMMENDATIONS:**

- This small trib. originates on an intermediate terrace above the E.F. Dickey River and joins Mina Smith Cr. on that terrace.
- Ed's Cr. has a gentle gradient, two ponds and two hundred meters of marsh.
- This trib. provides a lot of excellent rearing habitat.
- Except for the marsh this trib. is well shaded by salmonberry, willow and a young conifer plantation.

**COMMENTS & RECOMMENDATIONS:** (Continued)

Recommend:

-A control at the old grade crossing will create a very nice pond.

-There are other places in this channel that controls will be effective
